### Flood Map – Information Warnings

#### Manchester Ship Canal

Flood Mapping of the Manchester Ship Canal in Trafford, Salford and Warrington was updated 9 August 2012 as a result of a judgment of the High Court. The judgment concluded that the Ship Canal sluice gates should not be regarded as 'formal' flood defences and that our decision to map the Ship Canal flood zones as if the sluice gates were closed was unlawful. We have applied to the Court of Appeal to appeal against this judgment, and we will keep this caveat updated. For further information please contact the Environment Agency on 03708 506 506.

#### River Witham

Revisions to the Flood Mapping for the River Witham from Long Bennington to Claypole will be delivered as part of our next update in November 2012. For further information please contact us on 03708 506 506.

#### Wells, Somerset

We are aware of issues with the Flood Mapping in Wells, Somerset. Corrections will be published in November 2012. For further information please contact us on 03708 506 506.

\* **Legend Information:** Flood defences and the areas benefiting from them are gradually being added through updates. Please contact your [local environment agency office](#) for further details.
